

Example task: save two open blog posts as PDFs

English instruction

“Please download the blogs opening now in PDF format and save them in their title to /home/user/Documents/Blog.”

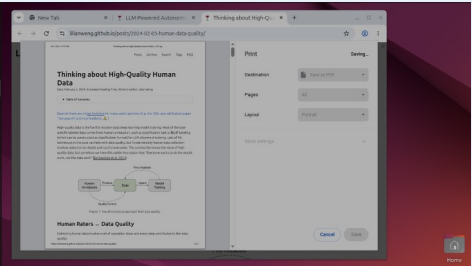

Arabic instruction (human translated)

يرجى تنزيل المدونات المفتوحة الآن بصيغة PDF وحفظها بعناوينها في المسار:

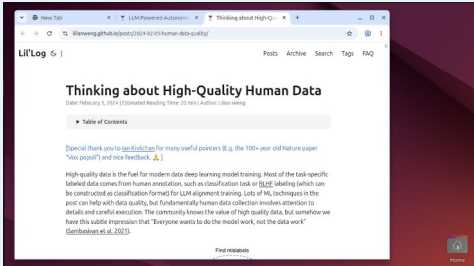

/home/user/Documents/Blog

The same task is also translated to Egyptian, Syrian, Qatari, Sudanese and Algerian Arabic.

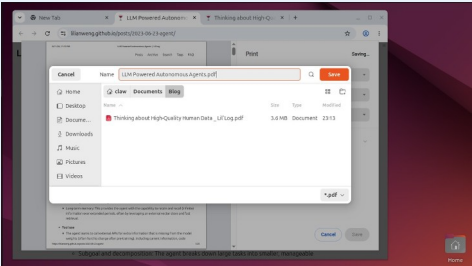

English machine

Print, save as PDF

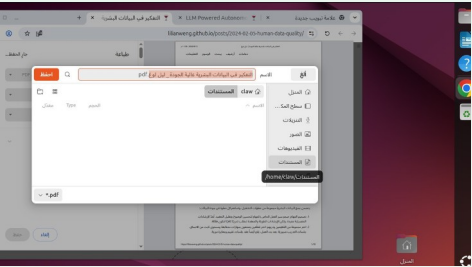

Creates Documents/Blog, saves the first article

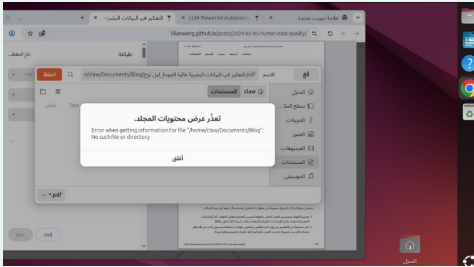

Saves the second article, done at step 21

PASS

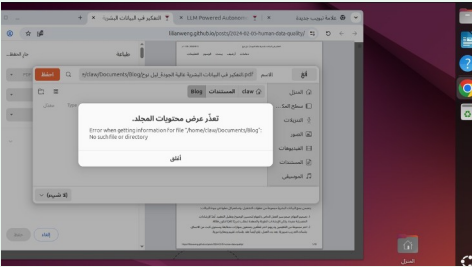

Arabic machine

Types the path /home/user/Documents/Blog

The folder is called المستندات, so “folder not found”

Same error at step 50, no PDFs saved

FAIL

How it works

Tasks

171 tasks from OSWorld, ClawBench and Terminal-Bench, plus 50 new Arabic tasks

Translation

Translated by humans to MSA and 5 dialects: Egyptian, Syrian, Qatari, Sudanese, Algerian

Two machines

English VM
Arabic VM

Agent

Sees screenshots and navigates with the mouse and keyboard

Evidence

Everything is recorded. The final request is captured but not sent.

Checker
